SERVICE RULES

I. Preamble:

1. These rules shall be called as Service Rules'.
2. They shall be deemed to have come into effect from 16th June, 2022.

II. 1. Appointments:

The Management/ Director is the competent authority to appoint any employee based on the recommendations of the University/ Local selection Committee. The appointment orders shall be issued by the Management / Director.

2. Qualifications:

The qualifications, age, experience etc., shall be as per AICTE/UGC norms in respect of teaching staff and AICTE/ State Government / University / Management norms in respect of Non-Teaching Staff.

3. Selection:

- a) The rules prescribed for selection of employees from time to time by AICTE / University / State Government / Local selection Committee shall be followed.
- b) A post shall be filled up by direct recruitment through open advertisement or by promotion from amongst qualified and eligible internal candidates by a selection committee as directed by the Management.
- c) The Management / Director may in special circumstances appoint qualified persons by invitation / deputation / contract basis year after year.

III. Pay, Allowance, Increments and Promotions:

1. **Pay:** AICTE/UGC scales of pay shall be applicable from time to time to the posts classified as teaching staff. State Govt. / University scales of pay shall be applicable from time to time to the posts classified as non-teaching staff.
2. **Allowances:** Dearness, House Rent and other allowances as per AICTE norms for teaching staff and State Govt. norms for non-teaching staff are extended by Management from time to time to all regular employees of the Institute.
3. **Sanction of Increments:**
 - a) Director/Selection committee is the competent authority to recommend advance increments to the candidates selected based on their qualification / specialization / Research contributions / previous salary drawn and experience at the

CAYM Education Trust's

SIDDHANT INSTITUTE OF COMPUTER APPLICATION

(Approved by AICTE New Delhi, Gov. of Maharashtra Recognised Savitribai Phule Pune University)

time of appointment.

- b) **Regular Increments:** The regular increments shall be sanctioned by the Director / Management on the satisfactory performance of the employee.

IV. General Service Conditions:

1. All the employees of the Institute shall abide by the general rules of conduct as specified by the Institute.
2. All the employees of the Institute are required to be present in the Institute throughout the working hours of the Institute on all working days.
3. An employee of the Institute shall devote his/her whole time to the service of the Institute and not to engage directly or indirectly in any trade or business or private tuition or any other work which is likely to interfere with the proper discharge of his/her duties. This provision shall not apply to academic work relating to university examinations, question paper setting, delivering Guest Lectures and any other work undertaken with the prior permission of the Director.
4. An employee may be placed under suspension by the appointing authority pending enquiry into framed charges by giving the employee a fair chance to represent his/her case. The Director is empowered to suspend any employee in the interest of the Institute and report his action to the Management and the university as the case may be.
5. The services of an employee are liable to be terminated on grounds of fraud, gross indiscipline, negligence of duties, prolonged illness, disability to discharge his/her official duties satisfactorily etc., giving 3 months' notice or 3 months' salary in lieu thereof for regular employee. The employee concerned however shall be given full and fair opportunity to represent his / her case before effecting such termination.
6. An employee shall have to give three months' notice in case he / she desires to be relieved on resignation or alternatively he / she shall pay three months' salary in lieu thereof. The resignation shall come into force from the date of acceptance of the resignation by the Management / Director or the date of relieve, whichever is earlier.
7. For all employees in the Institute, an individual personal file and Service Book shall be maintained with regular updates as per State Government / affiliating university norms.

7. A teacher, against whom insolvency proceedings commenced in a court of law, shall forthwith report full facts thereof to the Institute.
8. A teacher, against whom criminal proceedings are initiated in a court of law, shall immediately inform the competent authority of the Institute regarding the details thereof.
9. No teacher shall, except with the prior sanction of the competent authority, have recourse to any court of law or to the press / media for / against any official act of the Institute.
10. No teacher, who has a living spouse, shall contract another marriage without first obtaining the permission of the Governing Body, even if a subsequent marriage is permissible under the personal and religious law for the time being applicable to him / her. Violation of this rule will lead to removal from the service of the institution.
11. Whenever any teacher wishes to put forth any claim or seeks redressal of any grievance, he / she must forward his / her case through the proper channel to the competent authority only and shall not send copies of any such applications as advance copy to the higher authorities unless the competent authority has rejected the claim or refused relief or the matter is delayed beyond a reasonable time.
12. Every teacher shall be governed by these rules and shall be liable for consequences in the event of any breach of the rules by him / her.
13. A teacher who commits any offence or dereliction of duty, or does an act detrimental to the interests of the Institute, is subject to an enquiry and punishment by the competent authority. Any teacher who is aggrieved with the decision of the competent authority may appeal against such punishment or decision, within 15 days of the receipt of the orders of the decision, to the Governing Body and the decision of the Governing Body thereon is final.
14. No teacher shall engage in strike or incitement thereto or in similar activities such as absence from work, or neglect of duties, or participate in hunger strike etc. Violation of this rule will amount to misconduct and will attract detention or punishment.

15. All the teachers shall handover their original certificates to the Director at the time of joining duty.
16. The institute gives utmost priority for discipline and every staff, is bound to follow the rules and regulations of the institute and maintain strict discipline.
17. Internal assessment is part of the evaluation. Please check the marks displayed on the notice board.
18. The institute takes note of serious misbehavior, insubordination, habitual tardiness, irregular work habits or obscenity which is punishable by fine, suspension or dismissal. The Institute is declared an alcohol-smoke-drug-free area and offenders face dismissal.
19. Be on time for your lectures and practical. Be punctual.
20. Respect the organization goals and help to achieve them.
21. Staff members shall follow the directions and instructions properly given Director and HODs.
22. Lunch break only one hour.
23. Establish a politeness policy for basic manners.
24. Teach students the importance of thinking of others; write thank-you notes.
25. Respect your fellow workers.
26. Keep your cell phones in the silent mode to avoid disturbing others sitting around you.
27. Learn to own your mistakes
28. Do not ask for personal favors from your subordinates. Too much of friendship at the workplace is bad.
29. Proper etiquette requires that you make others comfortable and protect their feelings. You do not point out their errors or draw attention to their mistakes.
30. In any working situation, you are perceived as more capable, more professional, and more intelligent if you are familiar with the proper code of conduct for the workplace.

PERFORMANCE APPRAISAL SYSTEM

Institution has Performance Appraisal System for teaching and non-teaching staff.

The teaching staff appraisal is carried out in two ways

a) **Students' feedback:** students evaluate faculty member's performance on content delivery (knowledge) skills and interpersonal skills.

b) **Self-appraisal:** Besides students' evaluation, teaching staff also fill the self appraisal form by noting their achievements and skill set up gradation during the appraised academic year. These forms are confidential. Later, the Director assesses the student's feedback and self appraisal form and adds remark based on the overall interaction and contribution of teaching staff member during the assessment year.

The non-teaching staff appraisal is carried out by taking self appraisal. The staff member has to fill-up the self appraisal form, which is then assessed by the Director and accordingly put his/her overall review/remark based on the overall interaction and contribution of staff during the assessment year.

These confidential performance appraisal reports of teaching and non-teaching staff members are then to be forwarded to management authority i.e. Siddhant Group of Institutions for further evaluation, discussion and further decision if any to be taken on the basis.

DISCIPLINARY ACTION

- a) All employees are liable for disciplinary action in case of disobedience, misconduct and dereliction / negligence of duty. However, such disciplinary action shall be taken after establishing the grounds on which the disciplinary action is initiated and after a reasonable opportunity has been provided to the employee to defend himself / herself.
- b) As part of the disciplinary action, the following punishments for good and sufficient reasons may be imposed upon the employees of the institution, after establishing the facts about committing an offence and dereliction / Negligence of duties.
- i) Censure (strong expression of disapproval)
 - ii) Withholding increments / promotion
 - iii) Recovery from his/her salary whole or part of any financial loss caused to the Institute due to negligence of duty or breach of orders / rules.
 - iv) Suspension
 - v) Removal from service
 - vi) Dismissal from service
- c) If the competent authority feels it necessary to constitute an enquiry committee as a part of the procedure fortaking disciplinary action, the enquiry committee shall consist of 3-5 members consists of Director, HoD, senior faculty and senior non-teaching staff member.
- An employee can appeal against any punishment imposed upon him / her by the competent authority to the Management.

Student Centric Method

The institute offers a supportive ICT-enabled infrastructure that enhances course delivery, elevates student performance, fosters student engagement, and has a positive impact on the learning experience. It actively promotes student development through a range of student-centered teaching and learning approaches.

Experiential Learning:

The following experiential learning methods are employed to boost students' creativity and cognitive abilities:

Sr. No.	Details
1	Mini project Work
2	Expert Talk
3	Open Courses
4	Practical Session
5	Training Programs
7	Role Play
8	Student Centric ICT Tools and platforms

Internal Evaluation, Concurrent Evaluation and External Evaluation

Master of Computer Application (MCA)(2020 Pattern)

Internal Evaluation

The internal assessment follows the guidelines of the respective program, specifically the MCA program provided by Siddhant Institute of Computer Application, affiliated with SPPU.

The MCA program operates on a Choice Based Credit System (CBCS), allowing students to earn their degree by accumulating the specified number of credits associated with the program. Each course is allocated a set number of credits, determined by the content to be mastered and the anticipated effort required from the student. The primary distinguishing features of the Choice Based Credit System include Continuous Learning and Student-Centric Concurrent Evaluation.

MCA Program Structure

Course Type	Credit	Total Credit During MCA	Internal Evaluation	End Semester Evaluation	Total
Subjects	3	51	25	50	75
Open Source Subjects	1	6	25	0	25
Practical	5	15	75	50	125
Mini Projects	5	15	75	50	125
Soft Skills	1	3	25	0	25
Project	22	22	300	250	550
Total Credit		112	1400	1400	2800

CAYM Education Trust's

SIDDHANT INSTITUTE OF COMPUTER APPLICATION

(Approved by AICTE New Delhi, Government of Maharashtra Recognised Savitribai Phule Pune University)

Add: At post-Sudumbare, Tal-Maval, Dist-Pune-412109, Ph: 02114-661992

Email: siddhantical@gmail.com Website: www.siddhantica.in

Evaluation and Assessment:

The workload in the MCA programme is made up of a total of 112 credits.

Semester	Credit	IE	UE
Semester I	28	350	350
Semester II	28	350	350
Semester III	28	350	350
Semester IV	28	350	350
Total	112	1400	1400
			2800

The final total assessment of the candidate is made in terms of an internal (concurrent) evaluation and an external (university) examination for each course.

The MCA programme is a combination of:

- Three-Credit Courses (75 Marks each): 3 Credits each
- Two-Credit Courses (50 Marks each): 2 Credits each
- One-Credit Courses (25 Marks each): 1 Credits each

1. Examination Scheme:

2.1 Three Credit Courses (75 Marks each):-

For each credit course, 25 points will be based on evaluation and 50 marks will be awarded for the university's semester test.

Sr. No.	Exam	Marks		Converted
1.	Mid Term	20	80	10
2.	End term	50		
3.	Course Exit Survey	10		
4.	Continues Assessment			
	Problem Based Assessment/ Practical based Assessment(PBA)	50	50	10
	Theory based Assessment/ Tutorial Based Assessment(TBA)	20	20	10
Total Marks		150		25

CAYM Education Trust's

SIDDHANT INSTITUTE OF COMPUTER APPLICATION

(Approved by AICTE New Delhi, Government of Maharashtra Recognised Savitribai Phule Pune University)

Email: siddhantical@gmail.com Website: www.siddhantica.in

The internal evaluation of 25 marks further divided into Written Examination (Assignments/Unit test/written examination etc.), Practicals and Tutorials. The details have been specified in each course. Internal Assessment for the course is based on following concurrent evaluation.

A. Mid Term Assessment(20 marks):

We conduct internal exam in our college. Midterm Assessment will be based on Short answer.

B. End Term Assessment(50 marks):

Term End Examination of I, III and V Semester will be conducted in the month of October and for the semester II, IV, and VI will be conducted in the month of March/April. End Term Assessment will be based on Objective Type Questions, Short Answer Questions etc.

C. Course Exit Survey(10 Marks):

In this method, a student is asked to assess himself/herself on his/her understanding or demonstration of the course outcomes. A well designed questionnaire mapping to all the course outcomes is part of the Course exit survey and will be conducted at the end of course.

D. Continuous Assessment(70 marks):

Faculty members in the course are granted the freedom to create Continuous Assessment Components, determine marks, and implement them in a way that provides a comprehensive evaluation of students' capabilities in knowledge, skill, and attitude (KSA) dimensions. This evaluation is achieved through the use of diverse assessment tools throughout the semester, ensuring a well-rounded assessment.

- Problem Based Assessment/Practical based Assessment(PBA)-50 marks
- Theory based Assessment/Tutorial Based Assessment(TBA) – 50 marks

In the above table total internal Theory course evaluation of 150 marks will be converted to 25 marks (internal marks i.e.IM). And out of 25 marks students have to score a minimum 40% i.e. 10 marks to pass the internal Examination.

2.2 Guidelines to conduct Practical/Mini-Project evaluation for Semester I, Semester II of MCA – 2020 pattern

2.2.1 Practical: The timetable for practical assignment submission is created by the course faculty and distributed to the students through recognized means like the notice board or Whatsapp group. Additionally, students are required to take practical exams at the end of semester. The total marks of the practical course will be calculated as follows

CAYM Education Trust's

Add: At post-Sudumbare, Tal-Maval, Dist-Pune-412109, Ph: 02114-661992

Email: siddhantical@gmail.com Website: www.siddhantica.in

Attendance	Lab Manual	Program Execution	Viva
10 Marks	20 Marks	20 Marks	25 Marks

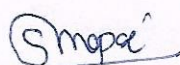

2.2.2. Mini Project: Project Co-ordinator prepares the schedule for submission of project, and shares it with students. Students have to do the project submission on time. And at the end of the semester students have to deliver Project Presentation and Viva. The total marks of the mini project will be calculated as follows

Project Report 35 Marks			Viva	Working Demo
UML diagram 10 Marks	cases/validations, screen designs 20 Marks	Project Report 05 Marks	15 Marks	25 Marks

2.3 Open Subject, Case Study and Soft Skill (25 Marks each):

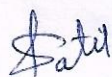

The institute establishes the content for case studies, soft skills, and open subjects, making decisions based on industry requirements. Students receive information about the implementation and evaluation methods before the commencement of the respective course.

Note: This scheme is applicable for MCA 2021-2023 batch

External Examination

Overview of External Examination Process:

1. Pre-Examination Phase:

This stage generally involves informing students about the examination fee structure and the schedule for submitting examination application forms in accordance with the university's specified timetable.

After students complete and verify their examination forms, attaching the latest stamp-sized attested photographs, the institutes organize and submit them to the University within the prescribed deadline. The forms are categorized based on the examination, course, and branch.

Upon receiving the examination forms, the university generates hall tickets for end-semester examinations. Students can obtain their hall tickets from the institute.

The institute keeps students informed about the examination timetable, which is received from the University website.

2. Examination Phase:

The College Examination Officer will obtain an OTP from the university and download the designated question paper within the timeframe specified by the university, typically half an hour to one hour before the examinations. Subsequently, the question papers are dispatched to the examination halls.

Invigilators are responsible for distributing the question papers to the candidates during the examination. Candidates then proceed to write their exams on the provided answer sheets at the Examination Centers.

Upon the conclusion of the examination, invigilators collect the answer booklets from all candidates. The institutes organize these answer booklets based on courses, subjects, branches, etc., and forward them to the respective Central Assessment Programme (CAP) center.

3. Post Examination Phase:

All answer sheets gathered at the Central Assessment Program (CAP) undergo masking in adherence to the University Act. Various methods, such as manual coding and barcoding, are employed for this purpose.

CAYM Education Trust's

SIDDHANT INSTITUTE OF COMPUTER APPLICATION

(Approved by AICTE New Delhi, Government of Maharashtra Recognised Savitribai Phule Pune University)

Add: At post-Sudumbare, Tal-Maval, Dist-Pune-412109, Ph: 02114-661992

Email: siddhantical@gmail.com Website: www.siddhantica.in

Within the CAP Centers, instructors of the respective courses assess the Answer Booklets and perform moderation according to prescribed norms. The marks on the answer booklets are then tabulated and entered into the results sheets. Concurrently, affiliated colleges furnish internal marks and lab marks to the university. Based on this information, the final results are declared, and documents like mark sheets, grade reports, passing certificates, and provisional degree certificates are issued to the students. The institute distributes the mark sheets to the students.

Any student has the option to apply for verification, photocopying, or reevaluation. Subsequently, the answer sheets undergo verification (retotaling), photocopying, or reevaluation, depending on the specific case.

Steps of attainment of CO- POs (2020 pattern syllabus)

1. Calculate CO attainment for each course of internal assessment
 - i. Consolidated for all Assessment methods (Direct & Indirect)
 1. PBA- Practical Based assessment
 2. TBA- Tutorial base assessment
 3. Mid Term
 4. SPPU Exam
 5. Indirect - Course Exit Survey
 - ii. Refer the below table for attainment level

Criteria	Attainment Level
less than 50% having more than average marks	1
50% or more students having more than average marks	2
60% or more students having more than average marks	3

- iii. Calculate CO attainment for each course of external assessment
2. Distribute these values proportionately (Strong - 3, Medium - 2, Low/Poor - 1) in CO-PO matrix of the respective course.
3. Calculate final attainment for related PO.
4. Calculate indirect assessment values based on Alumni Survey, Student Survey and Employer Survey.
5. Calculate final Attainment value by considering Direct Assessment -80% and Indirect Assessment -20%.

Evaluation of Course Outcomes:

Method	Tools for Assessment	% Contribution	
Direct (Internal+External)	Internal Exam including Internal Assessment	30	80%
	External Examination	50	
Indirect	Course Exit Survey	20%

Siddhant Institute of Computer Application

Institution – Industry Cell

Institution – Industry Cell is established for bridge the gap between the institute and industry and thus enhancing the relationship among each other.

This cell identifies the industrial expectation and promotes institutional preparation for meeting industrial needs by facilitating sponsored R&D projects, seminars, workshops and various other industrial training programmes.

The aim of the cell is to make an effective contribution to educational system identifying the gap between academic curriculum and need of the industry.

Institution – Industry Cell promotes in equipping faculty to latest practices and makes the students industry-ready by providing exposure to current industry practices and hone their skills to adapt changing technologies.

The primary focus of Institution – Industry Cell is to interact with elite industries across the country and establish partnership them.

Function of the Cell

The institute has set up an Industry-Institute Partnership Cell with the following objectives:

- Bridging the gap between Industry-Institute by interactive programs
- Promoting a partnership approach towards mobilizing industrial personnel.
- To arrange for students' industrial visit.
- Organizing seminars, symposium, exhibitions and workshops both for faculties
- Students in cutting edge technologies to cater to the current need of the industry.
- To arrange industrial training for students and faculty members.
- To identify the opportunities for student project work in Industries.

- To encourage the department level tie-ups or MoUs with Industries for the mutual benefit.
- To promote consultancy activities and research and developmental activities with industry.
- To enrich the teaching learning process through identified industrial gap.
- To invite industry experts for guest lectures, seminars Brain-storming sessions and expertise sharing

Roles & Responsibilities of the Committee Members:

- To initiate different collaboration with industries at institute level by identifying the industrial expectation and promoting institutional preparation for meeting industrial needs by facilitating project work, seminars, workshops and various other industrial training programmes.
- To identify the gap in the curriculum keeping in mind the Program Specific Outcome of their respective department and cater to them by initiating different events, workshop, industry visit etc. in collaboration with different industries.
- To identify the need of the industry and current trend by getting the requirement from the students for initiating different events, workshop in collaboration with different industries.

Institution – Industry Cell Impact Analysis:

- Webinars helps in bridging the gap between Industry and Academia and thus providing the industrial and practical knowledge to the students on recent trends in Industries.
- Students got the opportunity to work in an Industrial Project
- The effectiveness of this practice can be gauged by the great response of the participants of the workshops
- Students picked up what they learnt at the workshops to implement their own mini project and also final year projects.
- Industrial Visits has been organized to give the students an elaborate exposure towards the industry need in recent times.

Siddhant Institute of Computer Application

Activities of Institution – Industry Cell

Under the Initiative of Institution – Industry Cell, Siddhant Institute organized Industrial Visit for its students in the various esteemed organization. The industrial visit bridges the gap between theoretical training and practical learning in a real-life environment.

Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes. It reviews teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals and records the incremental improvement in various activities

Preamble

- Every recognized institution has its internal quality assurance cell (IQAC) as a post accreditation quality sustenance strategy, according to national assessment and accreditation council (NAAC) Recommendations. As quality improvement is a never ending activity, the IQAC becomes a part of institutions system and stripes to achieve the institutions quality improvement and maintenance goals.
- IQAC is a participative and facilitative unit that would collaborate cool closely with faculty membersto devise the most effective techniques
- Main aim of IQAC includes:
 1. Workflows that are both efficient and timely
 2. Academic programs and research
 3. Approaches that are both affordable and inventive
 4. The best assessment process for preserving quality
 5. Providing the greatest infrastructure for achieving objectives
- The IQAC monitors and reviews the teaching-learning and evaluation process quarterly. With thisanalysis, the IQAC takes the initiative for quality sustenance as well as improvement.
- IQAC along with HOD and Director periodically reviews the teaching-learning process, structures & methodologies of operations, and learning outcomes.

Entrepreneurship Development Programme (EDP) is a programme which helps in developing entrepreneurial abilities. The skills that are required to run a business successfully is developed among the students through this programme. Sometimes, students may have skills but it requires polishing and incubation. This programme is perfect for them. This programme consists of a structured training process to develop an individual as an entrepreneur. It helps the person to acquire skills and necessary capabilities to play the role of an entrepreneur effectively.

EDP is an effort of converting a person to an entrepreneur by passing him through thoroughly structured training. An entrepreneur is required to respond appropriately to the market and he/she is also required to understand the business needs. The skills needed are varied and they need to be taken care in the best possible way. EDP is not just a training programme but it is a complete process to make the possible transformation of an individual into an entrepreneur. This programme also guides the individuals on how to start the business and effective ways to sustain it successfully.

Objectives of EDP

The objective of this programme is to motivate an individual to choose the entrepreneurship as a career and to prepare the person to exploit the market opportunities for own business successfully. These objectives can be set both in the short-term and long-term basis.

- **Short-term objectives:** These objectives can be achieved immediately. In the short-term, the individuals are trained to be an entrepreneur and made competent enough to scan the existing market situation and environment. The person, who would be the future entrepreneur, should first set the goal as an entrepreneur. The information related to the existing rules and regulations is essential at this stage.
- **Long-term objectives:** The ultimate objective is that the trained individuals successfully establish their own business and they should be equipped with all the required skills to run their business smoothly.

The overall objectives of EDP are mainly to help in the rapid growth of the economy by supplying skilled entrepreneurs. This programme primarily aims at providing self-employment to the young generation.

CHARACTERISTICS OF AN ENTREPRENEUR An entrepreneur should possess all such characteristics with the help of which he can perform various responsibilities successfully. The following characteristics are :- 1. Innovator Schumpeter differentiates between an inventor and innovator. An inventor discovers new methods and new materials and an innovator is the one who utilizes those discoveries and inventions. Not only this, the entrepreneur further exploits the inventions commercially and thus produces newer and better goods which give him profit and

satisfaction. Innovation may occur in the following forms : (i) The introduction of new goods. (ii) The introduction of new methods of production. (iii) The opening of a new market. (iv) The conquest of a new source of supply of raw-material. (v) The carrying out of the new form of organization of any industry. The entrepreneur locates ideas and puts them into effect in the process of economic development. According to Baumol, an entrepreneur is a Schumpeterian innovator and something more than a leader. 2. Risk-taker 15 Risk means the condition of not knowing the outcome of an activity or decision. A risk situation occurs when one is required to make a choice between two or more alternatives whose potential outcomes are not known and must be subjectively evaluated. A risk situation involves potential gain or loss. The greater the possible loss, the greater is the risk involved. An entrepreneur is a calculated risk-tasker. He enjoys the excitement of a challenge but he does not gamble. An entrepreneur avoids low-risk situation because there is a lack of challenge and he avoids high-risk situation because he wants to succeed. He likes achievable challenges. An entrepreneur likes to take realistic risks because he wants to be successful. He gets greater satisfaction in accomplishing difficult but realistic tasks by applying his own skills. Hence, low-risk situation and high-risk situation both are avoided because these do not satisfy the entrepreneur. 3. Organiser An entrepreneur has to bring together various factors of production, minimize losses and reduce the cost of production. Initially, he may take all the decisions but as the enterprise grows, he starts delegating the authority. He produces that best results as an organizer. Not only this, it is the entrepreneur who has to pick or select the right piece of land, choose the right person and opt for the finance. He must be able to inspire loyalty and hard work amongst the workers to raise productivity and efficiency. In order to expand the business, he must have willingness to delegate authority and trust his sub-ordinates and managers although shaping of long-run policies of the enterprise would remain in his hands. 4. Creative Creatively, as field knowledge, seeks to explain how humans, either individually or collectively, reach solutions that are both novel and useful. Innovation means the effort to create purposeful ventures. Harry Nystrom states that innovation may be defined as radical discontinuous change and creativity is the ability to devise and successfully implement such changes. Successful innovations depend on creativity and one of the most important requirements of an entrepreneur is to be creative as creativity may be taken as the cause and successful innovation as the effect. 5. Motivator McClelland explicitly introduces the need for achievement motivation as a psychological motive and implicitly emphasised the need for achievement as the most directly relevant factor for explaining economic behaviour. Achievement motivation is a drive to overcome challenges, to advance and to grow. An entrepreneur is an achievement-oriented person, not 'money hungry'. He works for his desire for challenge, accomplishment and service to others. 16 Achievement concerns refers to the accomplishment of excellent, innovative and risk involving tasks. The organizational goal of an entrepreneur can be boosted by inculcating in him the need for achievement. 6. Technical Competent Success of an entrepreneur depends largely upon his ability to adopt latest technology. Technical knowledge implies the ability to devise and use new and better ways of

producing and marketing goods and services. An entrepreneur must have a reasonable level of technical knowledge. Technical knowledge is the ability that people can acquire with hard work. An entrepreneur who has a high level of administrative ability, mental ability, communication ability, human relations ability and technical knowledge can be more successful than a person with low level of these abilities. A dynamic entrepreneur must also be interested in changing the pattern of production to suit the requirements. 7. Self-confident It is necessary for an entrepreneur to be self-confident. He should have faith in himself only then he can trust others. In an expanded business, delegation of authority is a must and only a self-confident entrepreneur can delegate his authority. He can seek cooperation of his staff and inculcate a sense of team work in them.

Program: Training Program on MS Office

Objectives: To Train non teaching staff in MS Office as per the demand.

Need: The non teaching staff and students learning management subjects should be well-trained on e MS Office work demand.

Content:

MS Office: MS Word
MS Excel
Powerpoint

Resource Person: Prof. Nitin Shirirao

Supporting Staff: Prof. Reshma Mavkar, Prof. Dnyaneshwar Jadhav

Date: 10/04/2023 - 13/04/2023

Time: 1:00pm to 4:00pm

Venue: Classroom & Computer Lab

No. of Participants: 15

Certificate Course in Basics of MS Office

Objectives of the Course:

- To give basic information about the computer system.
- To give knowledge about computer hardware and computer software.
- To familiarize non teaching with the use of MS Windows, Internet and E-mail.
- To familiarize non teaching with the use of MS Office-MS Word, MS Excel & MS PowerPoint.

Course Overview:

Computer Proficiency is an inevitable part of commerce education. The course is aiming to equip all the commerce aspirants to have basic skills as well as hands on experience on word processing, for creating excel spreadsheets, for building databases and preparing presentations, through the use of Microsoft Office Word, Excel, and PowerPoint programmes.

Duration of the course: 12 Hours (Theory and Practical)

SYLLABUS

Module I

Introduction to Computer Fundamentals, Windows OS, Internet and Email, Classification of computers, Parts of a computer, Operating System, Internet, Modem, Web browsers, E-mail, Establishing your e-mail account

Module II

Introduction to Microsoft Word Basic components of a Word window, Preparing a word document, Editing a prepared document, Adjusting the margin settings, Additional formatting options, Header and Footer options, Border and Shading of page, Drawing options, Inserting images, Mail merge options, Saving a document, Creating a new document, Inserting audio and video files

Module III

Introduction to Microsoft Excel Enter data in excel workbook, Formatting toolbar, Shortcut to fill a series, Mathematical functions, Editing a data sheet, Format cell, Rename a sheet, Save, Open a workbook, Arrange data in ascending or descending order, Insert new cell column or row, Insert picture or clipart in excel sheet

Module IV

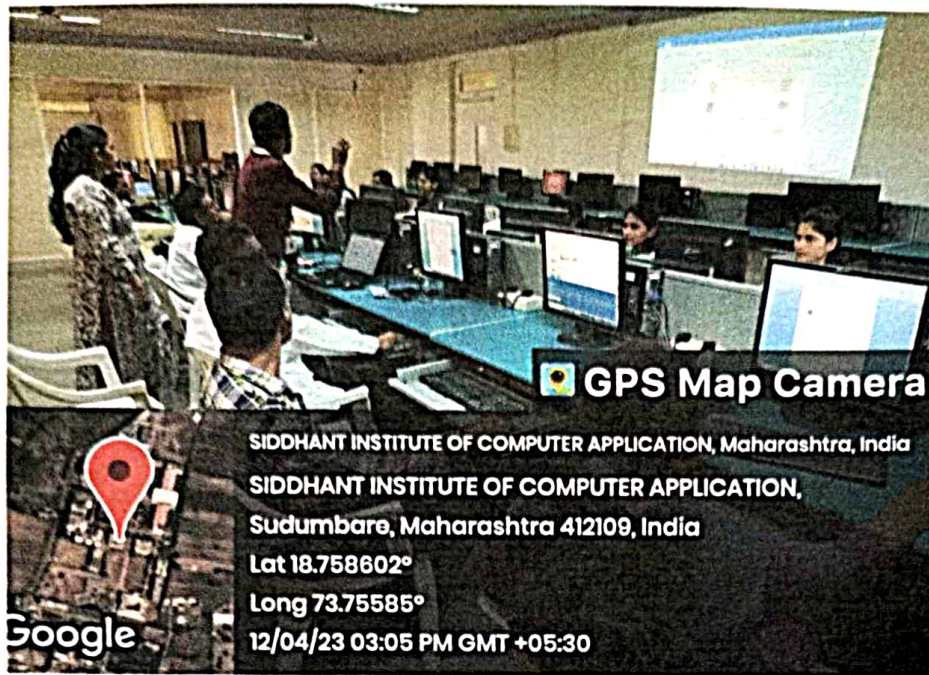

Introduction to Microsoft PowerPoint How to create a new slide, How to apply animation to slides, Fill background with effects, How to apply sound to slides, How to save a presentation, Opening an existing presentation, Insert new slides with different layout, Editing a slide, Inserting picture to a slide, Inserting media files to PowerPoint slides

Program Coordinator

Pictures of the session:

Feedback:

Feedback received	Action Taken
Staff response was positive, this course helped them to learn the technical skills in Advanced Excel which has increased employability.	It has been decided to carry on such courses in coming years also.

"WEBINAR ON RESUME WRITING"

Held on: 19th September 2022

Date of Event	Saturday, September 19, 2022
Name & Type of Event	Webinar on Resume Writing in collaboration with PMI Pune-Deccan India <u>Guest Speaker was:</u> Ms. Vidya Chavan
No. of Participants	20

INTRODUCTION :

On September 19, 2020, SICA and the PMI Pune-Deccan India Chapter collaborated to host a webinar focused on the art of resume writing. The PMI Pune-Deccan India Chapter primarily serves the Pune District Region but extends its reach to encompass the entirety of Maharashtra and Goa. This chapter stands out as one of the youngest and fastest-growing PMI chapters, having earned several awards in recognition of its achievements.

The webinar featured Ms. Vidya Chavan as the keynote speaker. Ms. Chavan, who holds the position of Vice President of Academic Outreach at PMI Pune-Deccan India Chapter, boasts an impressive 18 years of experience both internationally and domestically, leading teams on projects related to power plants, oil and gas, and electric vehicle charging stations. Her educational background includes a Bachelor's degree in Mechanical Engineering, an MBA in Oil & Gas, and she is a certified Project Management Professional (PMP). Currently, Ms. Chavan serves as an Engineering Manager at Black and Veatch and has previously been associated with L&T Geometric. She has a track record of conducting informative sessions with students and educators alike.

During the webinar session, various crucial points were covered regarding the Seven Steps of Resume Writing. These steps included crafting a compelling opening, showcasing the impact of one's work, highlighting technical skills, emphasizing soft skills, incorporating relevant keywords, and creating a resume that stands out from the rest. Ms. Chavan's expertise and experience enriched the discussion, providing valuable insights into the art of crafting an effective resume.

PROGRAM

The event was smoothly coordinated by TPOM Mrs. Reshma Jadhav. For this Webinar, GoTo Meeting ID and password was shared with the eligible students. In the beginning, Mrs. Reshma Mavkar (HOD) gave a welcome address to the participants and after the presentation she delivered the vote of thanks. Mrs. Sarita Patil, Sr. Project Manager from Sikharthy Infotech also attended the event. The program was also attended by Mrs. Reshma Jadhav (Training & Placement Officer), the Faculty Coordinators Prof. Priyadarshani Naral & Kalyani Joshi.

A.Y. 2020-21

DS Brush up training

Date- 8th November 2021 to 12 November 2021

Time- 2.30 pm to 4.30 pm

Venue- Zoom platform

Speaker – Mrs. Reshma Mavkar

Hands-on ONLINE training sessions on DS Brush up training were organized by the training cell of the institute for MCA students. These sessions were conducted every day in the second half. During these highly interactive sessions, following topics were covered by the trainer:

What is Data Structure:

A data structure is a storage that is used to store and organize data. It is a way of arranging data on a computer so that it can be accessed and updated efficiently.

A data structure is not only used for organizing the data. It is also used for processing, retrieving, and storing data. There are different basic and advanced types of data structures that are used in almost every program or software system that has been developed. So we must have good knowledge of data structures.

Data structures are an integral part of computers used for the arrangement of data in memory. They are essential and responsible for organizing, processing, accessing, and storing data efficiently. But this is not all. Various types of data structures have their own characteristics, features, applications, advantages, and disadvantages. So how do you identify a data structure that is suitable for a particular task? What is meant by the term 'Data Structure'? How many types of data structures are there and what are they used for?

Arrays:

An array is a linear data structure and it is a collection of items stored at contiguous memory locations. The idea is to store multiple items of the same type together in one place. It allows the processing of a large amount of data in a relatively short period. The first element of the array is indexed by a subscript of 0. There are different operations possible in an array, like Searching, Sorting, Inserting, Traversing, Reversing, and Deleting.

Memory Location									
200	201	202	203	204	205	206	■	■	■
U	B	F	D	A	E	C	■	■	■
0	1	2	3	4	5	6	■	■	■
Index									

Linked list:

A linked list is a linear data structure in which elements are not stored at contiguous memory locations. The elements in a linked list are linked using pointers as shown in the below image:

Types of linked lists:

- Singly-linked list
- Doubly linked list
- Circular linked list
- Doubly circular linked list

Linked List

Static and Dynamic data structures

In the Static data structure, the size of the structure is fixed. The content of the data structure can be modified without changing the memory space allocated to it.

REPORT ON – WEBINAR & WORKSHOP

"Android Development"

(Expert Talks)Held on: 27th July 2021

Date of Event	27 th July 2021
Name &Type of Event	A virtual session & workshop on "Android Development", was organized for the students of MCA. <u>The Guest Speaker was:</u> Mr. Deepayan Pal (Founder & Director of Sikharthy Infotech, Kolkata)
Conducted By	The Training & Placement Department
No. of Participants	38 (Including 2 from Sikharthy InfoTech, 2 Faculty Coordinators & 4 Members from T&P Department)

INTRODUCTION

Expert Talks, Held on: 27th July 2021, was based on Android Development. The webinar-cum-workshop was intended to give the students a fair idea about the application of android. The discussion started with the question "What is android" to assess the knowledge of the students and to break the ice. The distinguished speaker spoke at length on how building apps for mobile devices often requires mastery of a number of nuanced concepts. Mr. Pal spoke about JAVA Programming language that underpins all android development, mastering the basics of XML, android SDK, Android studio etc. He also shared his screen to show LIVE how an application is developed on an android. This provided students an opportunity to provide input to and exchange ideas and give individual feedback on issues of importance to this topic.

Sikharthy Infotech Private Limited is one of the best Web Development Companies in Kolkata. They also have a Skill Development wing where students and freshers are getting skilled to join the IT sector. Today, many of their trained candidates are working with top IT companies like TCS, CTS, ITC Infotech, and many more.

WEBINAR STRUCTURE

This virtual session was organized and hosted for the students of MCA, by the Training & Placement Department with participation from respective Faculty Coordinators. The speaker encouraged the students to actively participate in order to establish a 2 – way communication as he touched the nuances related to the topic. He also engaged the students in an online workshop wherein various polls were done to explain the topic.

ABOUT THE SPEAKER

Mr. Deepayan Pal is the Founder & Director of Sikharthy Infotech Pvt.Ltd. where he specializes in different fields of IT. He is a seasoned IT professional with over 8 years of Industry experience as a software developer.

KEY TAKEAWAYS

Participants raised many questions and provided comments regarding the Webinar's scope and how it connects with the broader picture. Some students even clarified their doubts in a one on one conversation. The distinguished speaker ensured that he patiently answered to all the questions elaborately. These questions and

perspectives were taken into consideration by the Training & Placement Department too for much better curriculum modification regarding placement activities. The speaker also made the students aware of android development through hands on training to prepare fresh graduates to seize career opportunities.

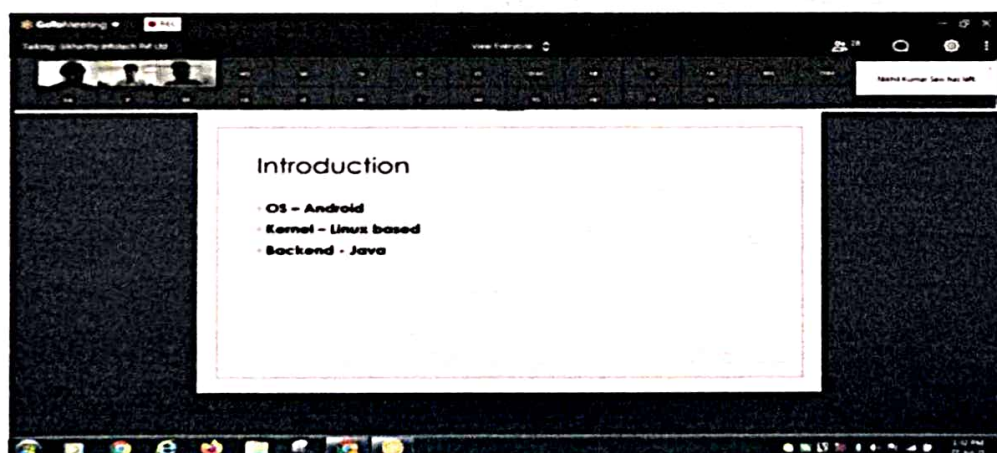

The key statements, quotes and points:

- ❖ What is Android?
- ❖ Enlightened about XML scripting language.
- ❖ Implications of Android Studio and its application.
- ❖ LIVE Application development on Android.

PROGRAM

The event was smoothly coordinated by TPO Mrs. Reshma Jadhav. For this Webinar, GoTo Meeting ID and password was shared with the eligible students. In the beginning, Mrs. Reshma Mavkar (HOD) gave a welcome address to the participants and after the presentation she delivered the vote of thanks. Mrs. Sarita Patil, Sr.Project Manager from Sikharthy Infotech also attended the event. The program was also attended by Mrs. Reshma Jadhav (Training & Placement Officer), the Faculty Coordinators Prof. Priyadarshani Naral & Kalyani Joshi.

Venue: Zoom Platform.

Advance Excel Report

THE MICROSOFT CERTIFIED ADVANCE EXCEL COURSE REPORT

TITLE: ADVANCE EXCEL Training Program

NEED FOR THE COURSE: The staff learning management subjects should be well-trained on excel as per the work demand.

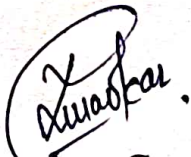

RESOURCE PERSON: Prof. Nitin Shirao

EVENT DETAIL: The Siddhant Institute of Computer Application concluded the Advance Excel training program on April 09, 2021. The course was organized from 1st April 2021 for 4 hours on online platform using zoom meeting. It was a 30 hours course conducted by Prof. Nitin Shirao sir for staff of MCA as well as other departments. 35 staff participated in it.

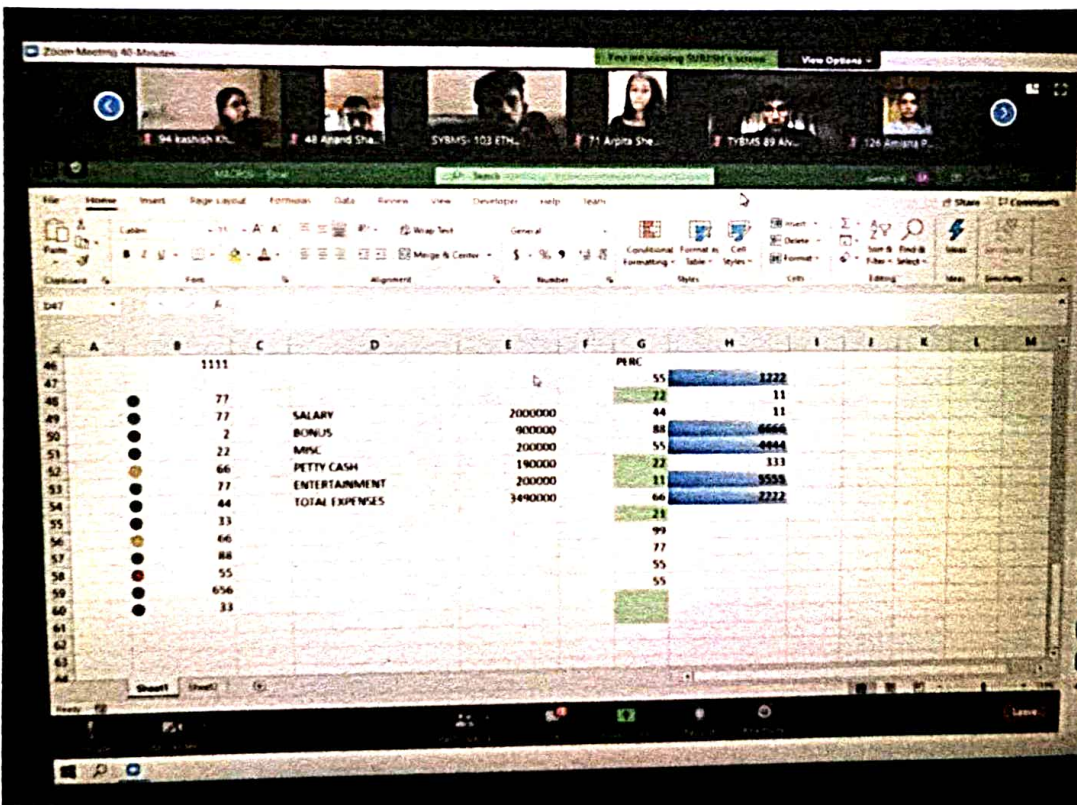

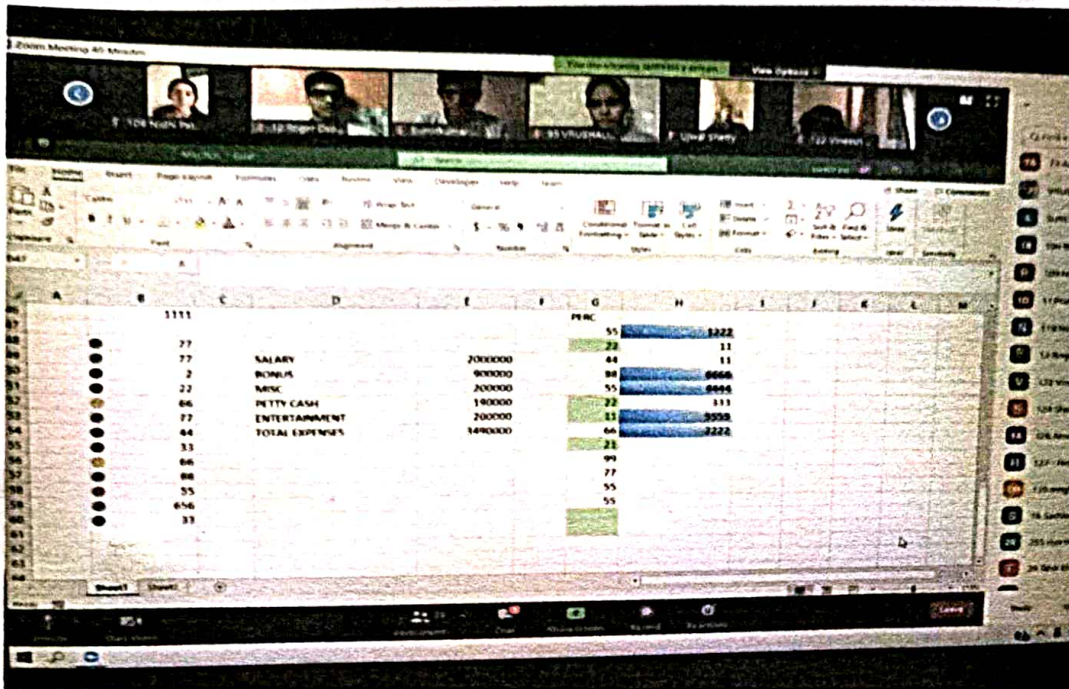

OUTCOME:

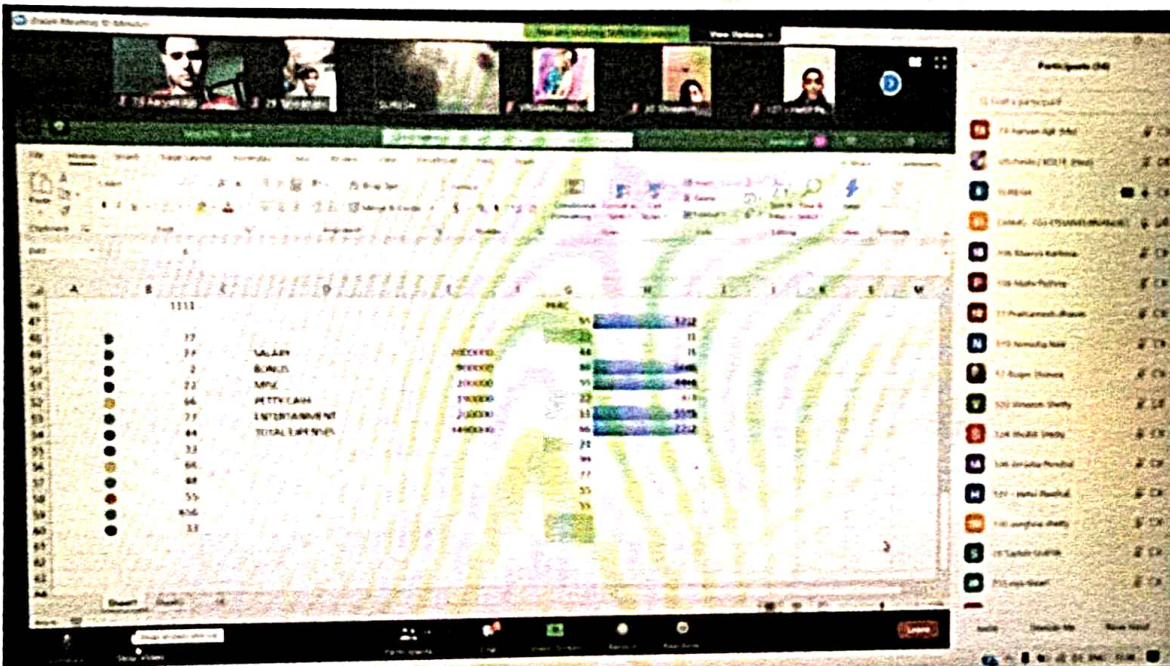

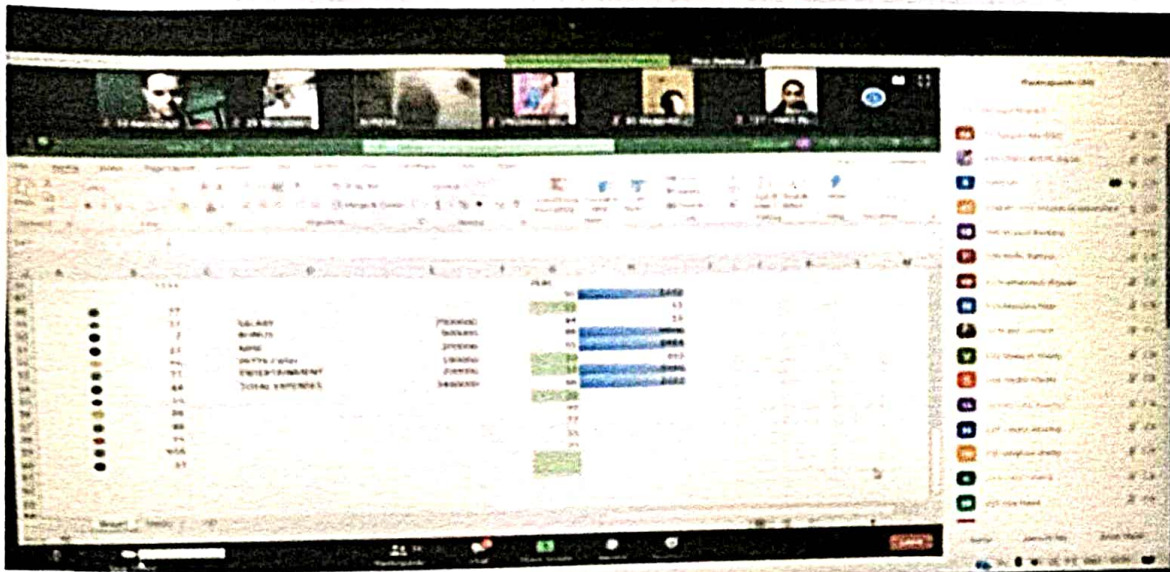

- The staff learnt various features of Microsoft Excel
- They learnt handling data using Excel
- Staff learnt using various formulas in excel, like Vlookup, etc.
- Staff became well versed with the excel utility which in turn increased their employability.

Program Coordinator

Pictures of the session:

Feedback:

Feedback received	Action Taken
Staff response was positive, this course helped them to learn the technical skills in Advanced Excel which has increased employability.	It has been decided to carry on such courses in coming years also.

Report –Guest Lecture on “Data Science”

Date: 25 March 2021

1. Expert Detail

Name: Dr .Nilay Karade

Organization: Logivention technology pvt.ltd

Total Experience: 13Years

Brief details of the lecture:

A one day seminar was organized for both the first and second year students of MCA . on Data Science and Data Analytics: Industry Perspective on 25th March 2021 online mode.

Purpose:

The purpose of this programme is to give students the required awareness and insight into the latest technologies in the industry in the field of Data Science. Report: Sir primarily spoke about the existing market requirements in the field of Data science and Data Analytics. he shared about her experiences and the knowledge in the field while motivating and encouraging students on how to be industry ready. Sir spoke on the topics relating to Machine learning, Artificial Intelligence and Business Intelligence. he gave students proper guidance on the important skills to be acquired for the Data Science and Data Analytics jobs presented their ideas and thoughts on how Data Science and Business Intelligence are taking over businesses all over the world.

Review: The students have extremely benefitted from the seminar and are now better equipped with the knowledge on Data Science. The session was very interactive and lively. Students participated with a lot of interest and enthusiasm. Frequent questions and relevant examples kept them hooked to the talk.

WEBINAR ON HADOOP FRAMEWORK
"Big Data Analytics Using Hadoop and Shark"
Held on: 25th September 2020

Date of Event	Friday, September 25, 2020
Name & Type of Event	Webinar on Big Data Analytics using Hadoop and Shark. The Guest Speaker was: Mr. Virendra Dakhode
No. of Participants	25

INTRODUCTION:

SICA organized an online webinar on **"Data Analytics using Hadoop and Apache Spark"**. The speaker for the session was Mr. Virendra Dakhode a Senior Analyst Programmer at TCS. The webinar was held for the MCA students through Google Meet on September 25, 2020 under the guidance Prof. Kalyani Joshi and Prof. Ekta Tiwari.

The session began with a concise introduction of the speaker by Prof. Ekta Tiwari. Following that Mr. Virendra Dakhode started his presentation off by explaining about data analytics and its importance. He also connected it to everyday life giving relevant examples of how it was used by google and in fraud detection. Going deeper into the subject he explained the types of data and its aspects. He also explained how legacy framework works. He then went on to discussing a scaling problem about servers crashing when data in data bases increasing exponentially and how Hadoop and Apache spark are data processing engines used to solve this problem where big data is generated by telecom, bank, e-commerce, search engine, healthcare, android and IOS apps, advertisement and other such industries which store data that shouldn't be deleted, data generated through social media apps through millions of posts on Instagram and Facebook, tweets on Tweeter, videos on YouTube and votes on Reddit, etc. Further he also interacted with the students ensuring they understood what is being explained. He then carried on proposing questions on Big Data and giving elaborate explanations. He also explained the characteristics of Big data, the 3V's: volume, velocity and variety. Finally, he gave a detailed step by step breakdown of the Hadoop ecosystem and simplified the complex jargon so that it was easily understood. He then concluded his presentation with use cases of Hadoop and Apache spark.

Mr. Virendra said that "Data analytics technologies and techniques give organizations a way to analyze data sets and gather new information."

His presentation was followed up by a Q&A session where everyone's doubts were cleared and Mr. Virendra shared his own experience in his industry. To conclude the meet Prof. Kalyani Joshi thanked everyone.

Program: Training on Attitude development and Positive thinking for Student Teaching and Non-teaching Staff

Objectives: This unique workshop teaches participants how to develop a positive attitude for success. Whether you consider yourself to have a good or bad attitude, this course will help you be more successful in your job and life.

Need: Participants learn practical techniques and specific how-to's they can use immediately to refocus and rethink their approach to work performance, the team, the boss and their life.

Resource Person: Dr. Sagar Manjre

Date: 10/12/2019

Time: 10:00 am to 01:00pm

Venue: Seminar Hall

No. of Participants Staff: 15

No. of Participants Student :25

An Attitude Skills Workshop

- Learn thinking processes that maximize your ability to succeed.
- Unique workshop teaches you how to develop and Apply Positive Attitudes for Success.

Further, he told some of the benefits of positive thinking in workplace. It includes:

- It improves problem-solving
- It helps decision-making
- It reduces stress levels
- It helps you manage feedback and conflict
- It facilitates interaction

He also described some of the ways positive thinking:

- Adjust your vocabulary
- Consider how others feel
- Smile more often
- Interact with positive people
- Develop goals.
- Think ahead
- Engage in self-reflection

The overall training was very motivating for all the participants.

Overview of Topics Covered and Learning Points Developed

- Understanding attitude
- Recognize the importance of attitude
- Positive attitude is the way you dedicate yourself and the way you think
- Check the way you think
- Developing your attitude attributes
- Develop a "Yes I can" attitude
- Learning the power of attitude
- Identify attitude origins and influences
- Apply the principles that lead to positive attitudes
- Have a clear, concise vision
- Do a reality check of your dreams
- Don't let fear stop your success
- Sell the benefits of performance
- Take responsibility for your attitude, your actions and your results
- Take specific actions that will lead to a positive attitude
- Tell stories to paint pictures of success
- Invite participation
- Radiate optimism
- Recognize achievement
- What to do when you become negative
- What to do when others are negative
- Develop individual action plans to achieve a positive attitude

To,
Dr. Harish Tiwari
Principal, PCCOE
Ravet, Pune.

Subject: - Invitation as a Speaker

Respected Sir,

On behalf of the Siddhant Institute of Computer Application, Sudumbare. I am pleased to have the honor of inviting you to conduct a lecture on "Innovation and Intellectual Property Rights" at our Institute for our faculty and students.

This will be helpful for our Faculty and students for their future growth. We look forward for your acceptance.

Thanking you.

Director

Mr. Nitin Shirirao
Director
Siddhant Institute of Computer Application

Seminar on Intellectual property Right (IPR) Report at SIMS

Aim and objective of Seminar lecture was to make all student and faculties understand what is intellectual property its concept & History of IPR in India.

Introduction

Intellectual property Right (IPR) is a term used for various legal entitlements which attach to certain of information, ideas, or other intangibles in their expressed form. The holder of this entitlement is generally entitled to exercise various exclusive rights in relation to the subject matter of the Intellectual Property.

History of IPR In India

George Alfred DePenning is supposed to have made the first application for a patent in India in the year 1856. On February 28, 1856, the Government of India promulgated legislation to grant what was then termed as "exclusive privileges for the encouragement of inventions of new manufactures" i.e the Patents Act. On March 3, 1856, a civil engineer, George Alfred DePenning of 7, Grant's Lane, Calcutta petitioned the Government of India for grant of exclusive privileges for his invention - "An Efficient Punkah Pulling Machine". On September 2, DePenning, submitted the Specifications for his invention along with drawings to illustrate it's working. These were accepted and the invention was granted the first ever Intellectual Property protection in India.

What is Intellectual Property?

Intellectual property is an intangible creation of the human mind, usually expressed or translated into a tangible form that is assigned certain rights of property. Examples of intellectual property include an author's copyright on a book or article, a distinctive logo design representing a soft drink company and its products, unique design elements of a web site, or a patent on the process to manufacture chewing gum.

What is Intellectual Property Rights?

CAYM Education Trust's

SIDDHANT INSTITUTE OF COMPUTER APPLICATION

(Approved by AICTE New Delhi, Government of Maharashtra Recognised Savitribai Phule Pune University)

Add: At post-Sudumbare, Tal-Maval, Dist-Pune-412109, Ph: 02114-661992

Email: siddhantical@gmail.com Website: www.siddhantica.in

Intellectual property rights (IPR) can be defined as the rights given to people over the creation of their minds. They usually give the creator an exclusive right over the use of his/her creations for a certain period of time. Intellectual property (IP) refers to creations of the mind: inventions, literary and artistic works, and symbols, names, images, and designs used in commerce

Intellectual Property Rights (IPR) of Computer Software in India, the Intellectual Property Rights (IPR) of computer software is covered under the Copyright Law. Accordingly, the copyright of computer software is protected under the provisions of Indian Copyright Act 1957. Major changes to Indian Copyright Law were introduced in 1994 and came into effect from 10 May 1995. These changes or amendments made the Indian Copyright law one of the toughest in the world. The amendments to the Copyright Act introduced in June 1994 were, in themselves, a landmark in the India's copyright arena. For the first time in India, the Copyright Law clearly explained:

- The rights of a copyright holder
- Position on rentals of software
- The rights of the user to make backup copies Since most software is easy to duplicate, and the copy is usually as good as original, the Copyright Act was needed.

Some of the key aspects of the law are:

- According to section 14 of this Act, it is illegal to make or distribute copies of copyrighted software without proper or specific authorization.
- The violator can be tried under both civil and criminal law.
- A civil and criminal action may be instituted for injunction, actual damages (including violator's profits) or statutory damages per infringement etc.
- Heavy punishment and fines for infringement of software copyright.
- Section 63 B stipulates a minimum jail term of 7 days, which can be extended up to 30 days

Concept of IP valuation

Concept of IP valuation as a separate asset, IP must be attributed a value. An intellectual property valuation may be made for various purposes, each of which is reflected in the four major concepts of valuation:

- Replacement cost: The value of the IP to the owner frequently determines the price in negotiated transactions as indicated by the owner's view of its replacement cost.
- Market value: The basis of market value is the assumption that if comparable property has fetched a certain price, then the subject property will realize a price something near to it.
- Fair value concept: This is, in essence, the desire to be equitable to both parties. It recognizes that the transaction is not in the open market and that vendor and purchaser have been brought together in a legally binding manner

Initiatives of Government of India towards protection of IPR

1. The Government has brought out A Handbook of Copyright Law to create awareness of copyright laws amongst the stakeholders, enforcement agencies, professional users like the scientific and academic communities and members of the public.
2. National Police Academy, Hyderabad and National Academy of Customs, Excise and Narcotics conducted several training programs on copyright laws for the police and customs officers.
3. The Department of Education, Ministry of Human Resource Development, Government of India has initiated several measures in the past for strengthening the enforcement of copyrights that include constitution of a Copyright Enforcement Advisory Council (CEAC), creation of separate cells in state police headquarters, encouraging setting up of collective administration societies and organization of seminars and workshops to create greater awareness of copyright laws among the enforcement personnel and the general public.
4. Special cells for copyright enforcement have so far been set up in 23 States and Union Territories

Email: siddhantical@gmail.com Website: www.siddhantica.in

5. The Government also initiates a number of seminars/workshops on copyright issues. The participants in these seminars include enforcement personnel as well as representatives of industry organizations.

Dr. Harish Tiwari was a guest speaker on IPR this session was really wonderful where all participants gained a valuable knowledge on what IPR is. Views were shared by our faculty member and the session ended with question and answer by the participants.

Research and Development Cell

The Research and Development Cell aims to nurture research culture in the College by promoting research in newly emerging and challenging areas of I.T. and Management. It encourages the students and faculty to undertake the research in newly emerging frontier areas fields. This enhances the general research capability of budding technocrats by way of participating in conferences, seminars, workshops, project competition, etc.

The Research and Development Cell is functioning with the following objectives:

- To create awareness and opportunities in Research and Development among the students & faculty and to create Research and Development atmosphere in every department;
- To create interest and atmosphere among the staff members to take up Research projects and improve their knowledge, skills and qualifications by registering Ph. D's;
- To motivate the faculty members of the group for R&D activities in the area of their specialization;
- To encourage staff members and students to publish technical papers for publishing in National and reputed International Conferences/Journals;
- Try to obtain the grants for research activities from various funding agencies such as UGC, CSIR, ICMR, DST and VGST.
- To coordinate faculty level workshops and staff development activities on research-related issues;
- A Research Committee of R&D Cell is in force with the following members contributing in a big way to prepare and implement the documents related to research and development activities within the College.

Understanding Business Research Methods

A.Y. 2021-22

Date -14th March, 2022 & 25th March, 2022

Time-9 am to 12 pm

Venue-SICA Seminar Hall

Speaker - Prof. Dr. Bijedra Gupta (HOD Computer Science)

Siddhant Institute Computer Application has organized a lecture series on "Understanding Research Methods" on 12th March, 2022 & 26th March, 2022. The sessions were conducted in offline mode in SICA campus. This lecture series was arranged as a corroborate activity among Siddhant Institute of Computer Application and Siddhant College of Engineering the institution has made. Prof. Dr. Bijedra Gupta and Group Director at Siddhant Institute Of Computer Application

Mass Communication, Pune was the guest faculty who conducted all the sessions

Following are the details of this lecture series-

Session No	Date	Topics Covered
Session 1	12 March 2022	The process of business research, Research Design, Hypothesis Formation
Session 2	26 March 2022	Data & Measurement, Attitude Scaling Technique, Sample. Non sample Probability Probability Sample. Determining size of the

This workshop was conducted for MCA students. Total 42 students attended the workshop on day 1 and 36 students on day 2 Majority of the participants said that these workshops were very useful and they would like to

Attend such workshops in future as well.
