REPORT

- **Topic:** Guest Lecture on Internship/Corporate Training and Placement
- **Guest lecturer:** Mr. Shivraj Gaikwad & Mr. Prasad Gaikwad
- **Co-ordinator:** Asst. Prof. Sarita Patil
- **Date & Time:** 23-06-2023

Session-I: 10.30 AM to 12.30 PM

- **Venue** : Seminar Hall
- **Guest Profile:** Mr. Shivraj Gaikwad (Director of Rapportsoft & Technology Pvt. Ltd,Hinjwadi)

  Experience: Total – **18 Years**

  Area of Specialization: Project Manager, Interview Panel Head.

  Mr. Prasad Gaikwad (Technical Lead)

  Experience: Total – **12 Years**

  Area of Specialization: Java Development.

- **Content:**

A part of departmental activity a guest lecture on **"Internship Program Corporate Training and Placement"** was held on 23rd June 2023. The guest lecture has been organized by the department of MCA to provide the knowledge of six month internship and Corporate Training to the students. All the students of first year attended the lecture. The guest lecture began with welcome address by the Student, Puja Ahuja. She has introduced and welcomed Mr. Shivraj Gaikwad sir & Mr. Prasad Gaikwad sir who has resource person to deliver the lecture.

The session was held by Mr. Prasad Gaikwad sir who began with an introduction to basics of vibration and how important it is going to be in the near future. Following which he

Siddhant Institute of Computer Application ★ Sudumbare, Pune-412109. ★ SEAL

shed light on the various technology & available current jobs based on it. He also suggested & encouraged to students to do career in Computer vibration field.

The session ended with hearty thanks and presenting of a memento to Prof. Sarita Patil in appreciation for taking the time out to educate the students on vibration. She thanked the department & college management for providing the platform to organize guest lectures on basics of vibration. He appreciated Faculty members, students for the successful conduction of the guest lecture

Date :13 September 2023

Entrepreneurship Development Programme (EDP) is a programme which helps in developing entrepreneurial abilities. The skills that are required to run a business successfully is developed among the students through this programme. Sometimes, students may have skills but it requires polishing and incubation. This programme is perfect for them. This programme consists of a structured training process to develop an individual as an entrepreneur. It helps the person to acquire skills and necessary capabilities to play the role of an entrepreneur effectively.

EDP is an effort of converting a person to an entrepreneur by passing him through thoroughly structured training. An entrepreneur is required to respond appropriately to the market and he/she is also required to understand the business needs. The skills needed are varied and they need to be taken care in the best possible way. EDP is not just a training programme but it is a complete process to make the possible transformation of an individual into an entrepreneur. This programme also guides the individuals on how to start the business and effective ways to sustain it successfully.

Objectives of EDP

The objective of this programme is to motivate an individual to choose the entrepreneurship as a career and to prepare the person to exploit the market opportunities for own business successfully. These objectives can be set both in the short-term and long-term basis.

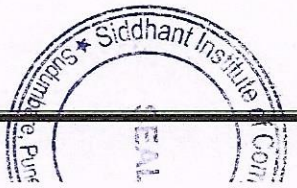
- **Short-term objectives:** These objectives can be achieved immediately. In the short-term, the individuals are trained to be an entrepreneur and made competent enough to scan the existing market situation and environment. The person, who would be the future entrepreneur, should first set the goal as an entrepreneur. The information related to the existing rules and regulations is essential at this stage.

- **Long-term objectives:** The ultimate objective is that the trained individuals successfully establish their own business and they should be equipped with all the required skills to run their business smoothly.

The overall objectives of EDP are mainly to help in the rapid growth of the economy by supplying skilled entrepreneurs. This programme primarily aims at providing self-employment to the young generation.

CHARACTERISTICS OF AN ENTREPRENEUR An entrepreneur should possess all such characteristics with the help of which he can perform various responsibilities successfully. The following characteristics are :- 1. Innovator Schumpeter differentiates between an inventor and innovator. An inventor discovers new methods and new materials and an innovator is the one who utilizes those discoveries and inventions. Not only this, the entrepreneur further exploits the inventions commercially and thus produces newer and better goods which give him profit and

satisfaction. Innovation may occur in the following forms : (i) The introduction of new goods. (ii) The introduction of new methods of production. (iii) The opening of a new market. (iv) The conquest of a new source of supply of raw-material. (v) The carrying out of the new form of organization of any industry. The entrepreneur locates ideas and puts them into effect in the process of economic development. According to Baumol, an entrepreneur is a Schumpetarian innovator and something more than a leader. 2. Risk-taker 15 Risk means the condition of not knowing the outcome of an activity or decision. A risk situation occurs when one is required to make a choice between two or more alternatives whose potential outcomes are not known and must be subjectively evaluated. A risk situation involves potential gain or loss. The greater the possible loss, the greater is the risk involved. An entrepreneur is a calculated risk-tasker. He enjoys the excitement of a challenge but he does not gamble. An entrepreneur avoids low-risk situation because there is a lack of challenge and he avoids high-risk situation because he wants to succeed. He likes achievable challenges. An entrepreneur likes to take realistic risks because he wants to be successful. He gets greater satisfaction in accomplishing difficult but realistic tasks by applying his own skills. Hence, low-risk situation and high-risk situation both are avoided because these do not satisfy the entrepreneur. 3. Organiser An entrepreneur has to bring together various factors of production, minimize losses and reduce the cost of production. Initially, he may take all the decisions but as the enterprise grows, he starts delegating the authority. He produces that best results as an organizer. Not only this, it is the entrepreneur who has to pick or select the right piece of land, choose the right person and opt for the finance. He must be able to inspire loyalty and hard work amongst the workers to raise productivity and efficiency. In order to expand the business, he must have willingness to delegate authority and trust his sub-ordinates and managers although shaping of long-run policies of the enterprise would remain in his hands. 4. Creative Creatively, as field knowledge, seeks to explain how humans, either individually or collectively, reach solutions that are both novel and useful. Innovation means the effort to create purposeful ventures. Harry Nystrom states that innovation may be defined as radical discontinuous change and creativity is the ability to devise and successfully implement such changes. Successful innovations depend on creativity and one of the most important requirements of an entrepreneur is to be creative as creativity may be taken as the cause and successful innovation as the effect. 5. Motivator McClelland explicitly introduces the need for achievement motivation as a psychological motive and implicitly emphasised the need for achievement as the most directly relevant factor for explaining economic behaviour. Achievement motivation is a drive to overcome challenges, to advance and to grow. An entrepreneur is an achievement-oriented person, not 'money hungry'. He works for his desire for challenge, accomplishment and service to others. 16 Achievement concerns refers to the accomplishment of excellent, innovative and risk involving tasks. The organizational goal of an entrepreneur can be boosted by inculcating in him the need for achievement. 6. Technical Competent Success of an entrepreneur depends largely upon his ability to adopt latest technology. Technical knowledge implies the ability to devise and use new and better ways of



producing and marketing goods and services. An entrepreneur must have a reasonable level of technical knowledge. Technical knowledge is the ability that people can acquire with hard work. An entrepreneur who has a high level of administrative ability, mental ability, communication ability, human relations ability and technical knowledge can be more successful than a person with low level of these abilities. A dynamic entrepreneur must also be interested in changing the pattern of production to suit the requirements. 7. Self-confident It is necessary for an entrepreneur to be self-confident. He should have faith in himself only then he can trust others. In an expanded business, delegation of authority is a must and only a self-confident entrepreneur can delegate his authority. He can seek cooperation of his staff and inculcate a sense of team work in them.

Program: Training Program on MS Office

Objectives: To Train non teaching staff in MS Office as per the demand.

Need: The non teaching staff and students learning management subjects should be well-trained on e MS Officeonwork demand.

Content:

MS Office: MS Word
MS Excel
Powerpoint

Resource Person: Prof. Nitin Shrirao
Supporting Staff: Prof. Reshma Mavkar, Prof. Dnyaneshwar Jadhav

Date: 10/04/2023 - 13/04/2023

Time: 1:00pm to 4:00pm

Venue: Classroom & Computer Lab

No.of Participants:15

Siddhant Institute of Computer ... SEAL ... Sudumbare, Pune-412109

Certificate Course in Basics of MS Office

Objectives of the Course:

- To give basic information about the computer system.
- To give knowledge about computer hardware and computer software.
- To familiarize non teaching with the use of MS Windows, Internet and E-mail.
- To familiarize non teaching with the use of MS Office-MS Word, MS Excel & MS PowerPoint.

Course Overview:

Computer Proficiency is an inevitable part of commerce education. The course is aiming to equip all the commerce aspirants to have basic skills as well as hands on experience on word processing, for creating excel spreadsheets, for building databases and preparing presentations, through the use of Microsoft Office Word, Excel, and PowerPoint programmes.

Duration of the course: 12 Hours (Theory and Practical)

SYLLABUS

Module I
Introduction to Computer Fundamentals, Windows OS, Internet and EmailComputer, Classification of computers, Parts of a computer, Operating System, Internet, Modem, Web browsers, E-mail, Establishing your e-mail account

Module II
Introduction to Microsoft Word Basic components of a Word window, Preparing a word document, Editing a prepared document, Adjusting the margin settings, Additional formattingoptions, Header and Footer options, Border and Shading of page, Drawing options, Inserting images, Mail merge options, Saving a document, Creating a new document, Inserting audio and video files

Module III
Introduction to Microsoft ExcelEnter data in excel workbook, Formatting toolbar, Shortcut tofill a series, Mathematical functions, Editing a data sheet, Format cell, Rename a sheet, Save, Open a workbook, Arrange data in ascending or descending order, Insert new cellcolumn orrow, Insert picture or clipart in excel sheet

Module IV
Introduction to Microsoft PowerPoint How to create a new slide, How to apply animation to slides, Fill background with effects, How to apply sound to slides, How to save a presentation,Opening an existing presentation, Insert new slides with different layout, Editing a slide, Inserting picture to a slide, Inserting media files to PowerPoint slides

DS Brush up training

Date- 8th November 2021 to 12 November 2021
Time-2.30 pm to 4.30pm
Venue-Zoom platform
Speaker – Mrs. ReshmaMavkar

Hands-on ONLINE training sessions on DS Brush up training were organized by the training cell of the institute for MCA students. These sessions were conducted every day in the second half. During these highly interactive sessions, following topics were covered by the trainer:

What is Data Structure:

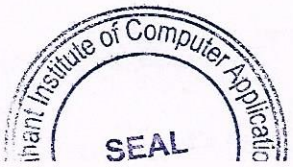
A data structure is a storage that is used to store and organize data. It is a way of arranging data on a computer so that it can be accessed and updated efficiently.

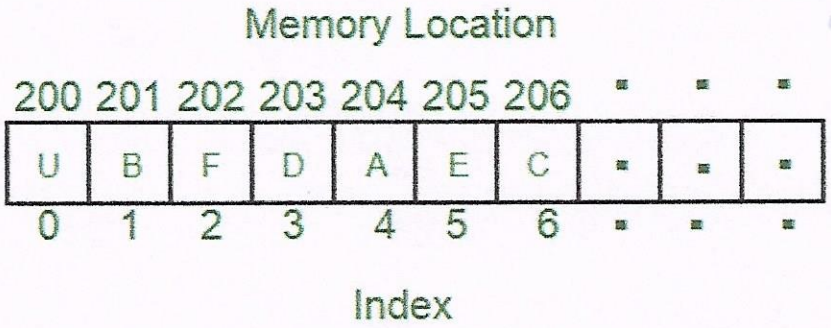
A data structure is not only used for organizing the data. It is also used for processing, retrieving, and storing data. There are different basic and advanced types of data structures that are used in almost every program or software system that has been developed. So we must have good knowledge of data structures.

Data structures are an integral part of computers used for the arrangement of data in memory. They are essential and responsible for organizing, processing, accessing, and storing data efficiently. But this is not all. Various types of data structures have their own characteristics, features, applications, advantages, and disadvantages. So how do you identify a data structure that is suitable for a particular task? What is meant by the term 'Data Structure'? How many types of data structures are there and what are they used for?

Arrays:

An array is a linear data structure and it is a collection of items stored at contiguous memory locations. The idea is to store multiple items of the same type together in one place. It allows the processing of a large amount of data in a relatively short period. The first element of the array is indexed by a subscript of 0. There are different operations possible in an array, like Searching, Sorting, Inserting, Traversing, Reversing, and Deleting.



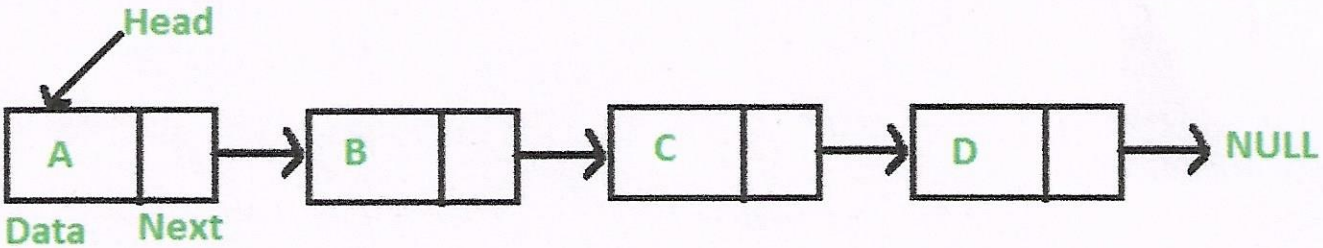


Linked list:

A linked list is a linear data structure in which elements are not stored at contiguous memory locations. The elements in a linked list are linked using pointers as shown in the below image:

Types of linked lists:

- Singly-linked list
- Doubly linked list
- Circular linked list
- Doubly circular linked list



Linked List

Static and Dynamic data structures

In the Static data structure, the size of the structure is fixed. The content of the data structure can be modified without changing the memory space allocated to it.

REPORT ON – WEBINAR & WORKSHOP

"Android Development"

(Expert Talks)Held on: 27th July 2021

Date of Event	**27th July 2021**
Name &Type of Event	**A virtual session & workshop on "Android Development", was organized for the students of MCA.** **The Guest Speaker was:** **Mr. Deepayan Pal (Founder & Director of Sikharthy Infotech, Kolkata)**
Conducted By	**The Training & Placement Department**
No. of Participants	**38 (Including 2 from Sikharthy InfoTech, 2 Faculty Coordinators & 4 Members from T&P Department)**

INTRODUCTION

Expert Talks, Held on: 27th July 2021, was based on Android Development. The webinar-cum-workshop was intended to give the students a fair idea about the application of android. The discussion started with the question "What is android" to assess the knowledge of the students and to break the ice. The distinguished speaker spoke at length on how building apps for mobile devices often requires mastery of a number of nuanced concepts. Mr. Pal spoke about JAVA Programming language that underpins all android development, mastering the basics of XML, android SDK, Android studio etc. He also shared his screen to show LIVE how an application is developed on an android. This provided students an opportunity to provide input to and exchange ideas and give individual feedback on issues of importance to this topic.

Sikharthy Infotech Private Limited is one of the best Web Development Companies in Kolkata. They also have a Skill Development wing where students and freshers are getting skilled to join the IT sector. Today, many of their trained candidates are working with top IT companies like TCS, CTS, ITC Infotech, and many more.

WEBINAR STRUCTURE

This virtual session was organized and hosted for the students of MCA, by the Training & Placement Department with participation from respective Faculty Coordinators. The speaker encouraged the students to actively participate in order to establish a 2 – way communication as he touched the nuances related to the topic. He also engaged the students in an online workshop wherein various polls were done to explain the topic.

ABOUT THE SPEAKER

Mr.Deepayan Pal is the **Founder & Director of Sikharthy Infotech Pvt.Ltd. where he specializes in different fields of IT.** He is a seasoned IT professional with over 8 years of Industry experience as a software developer.

KEY TAKEAWAYS

Participants raised many questions and provided comments regarding the Webinar's scope and how it connects with the broader picture. Some students even clarified their doubts in a one on one conversation. The distinguished speaker ensured that he **patiently answered to all the questions elaborately.** These questions and

Siddhant Institute of Computer Application SEAL Pune-411009

perspectives were taken into consideration by the Training & Placement Department too for much better curriculum modification regarding placement activities. **The speaker also made the students aware of android development through hands on training to prepare fresh graduates to seize career opportunities.**

The key statements, quotes and points:

- What is Android?
- Enlightened about XML scripting language.
- Implications of Android Studio and its application.
- LIVE Application development on Android.

PROGRAM

The event was smoothly coordinated by TPO Mrs. Reshma Jadhav. For this Webinar, GoTo Meeting ID and password was shared with the eligible students. In the beginning, Mrs. Reshma Mavkar (HOD) gave a welcome address to the participants and after the presentation she delivered the vote of thanks. Mrs. Sarita Patil, Sr.Project Manager from Sikharthy Infotech also attended the event. The program was also attended by Mrs. Reshma Jadhav (Training & Placement Officer), the Faculty Coordinators Prof. Priyadarshani Naral &Kalyani Joshi.

THE MICROSOFT CERTIFIED ADVANCE EXCEL COURSE REPORT

TITLE: ADVANCE EXCEL Training Program
NEED FOR THE COURSE: The staff learning management subjects shouldbe well-trained on excel as per the work demand.
RESOURCE PERSON: **Prof. Nitin Shrirao**

EVENT DETAIL: The Siddhant Institute of Computer Application concluded the Advance Excel training program on April 09, 2021. The course was organized from 1st April 2021 for 4 hours on online platform using zoom meeting. It was a 30 hours course conducted by Prof. Nitin Shrirao sir for staff of MCA as well as other departments. 35 staff participated in it.

OUTCOME:

- The staff learnt various features of Microsoft Excel
- They learnt handling data using Excel
- Staff learnt using various formulas in excel, like Vlookup, etc.
- Staff became well versed with the excel utility which in turn increased their employability.

Report –Guest Lecture on "Data Science"

Date: 25 March 2021

1. Expert Detail

Name: Dr .Nilay Karade

Organization: Logivention technology pvt.ltd

Total Experience: 13Years

Brief details of the lecture:

A one day seminar was organized for both the first and second year students of MCA . on Data Science and Data Analytics: Industry Perspective on 25th March 2021 online mode.

Purpose:

The purpose of this programme is to give students the required awareness and insight into the latest technologies in the industry in the field of Data Science. Report: Sir primarily spoke about the existing market requirements in the field of Data science and Data Analytics. he shared about her experiences and the knowledge in the field while motivating and encouraging students on how to be industry ready. Sir spoke on the topics relating to Machine learning, Artificial Intelligence and Business Intelligence. he gave students proper guidance on the important skills to be acquired for the Data Science and Data Analytics jobs presented their ideas and thoughts on how Data Science and Business Intelligence are taking over businesses all over the world.

Review: The students have extremely benefitted from the seminar and are now better equipped with the knowledge on Data Science. The session was very interactive and lively. Students participated with a lot of interest and enthusiasm. Frequent questions and relevant examples kept them hooked to the talk.

WEBINAR ON HADOOP FRAMEWORK

"Big Data Analytics Using Hadoop and Shark"

Held on: 25th September 2020

Date of Event	**Friday, September 25,2020**
Name &Type of Event	**Webinar on Big Data Analytics using Hadoop and Shark.** **The Guest Speaker was:** **Mr. Virendra Dakhode**
No. of Participants	**25**

INTRODUCTION:

SICA organized an online webinar on **"Data Analytics using Hadoop and Apache Spark"**. The speaker for the session was Mr. Virendra Dakhode a Senior Analyst Programmer at TCS. The webinar was held for the MCA students through Google Meet on September 25, 2020 under the guidance Prof. Kalyani Joshi and Prof. Ekta Tiwari.

The session began with a concise introduction of the speaker by Prof. Ekta Tiwari. Following that Mr. Virendra Dakhode started his presentation off by explaining about data analytics and its importance. He also connected it to everyday life giving relevant examples of how it was used by google and in fraud detection. Going deeper into the subject he explained the types of data and its aspects. He also explained how legacy framework works. He then went on to discussing a scaling problem about servers crashing when data in data bases increasing exponentially and how Hadoop and Apache spark are data processing engines used to solve this problem where big data is generated by telecom, bank, e-commerce, search engine, healthcare, android and IOS apps, advertisement and other such industries which store data that shouldn't be deleted, data generated through social media apps through millions of posts on Instagram and Facebook, tweets on Tweeter, videos on YouTube and votes on Reddit, etc. Further he also interacted with the students ensuring they understood what is being explained. He then carried on proposing questions on Big Data and giving elaborate explanations. He also explained the characteristics of Big data, the 3V's: volume, velocity and variety. Finally, he gave a detailed step by step breakdown of the Hadoop ecosystem and simplified the complex jargon so that it was easily understood. He then concluded his presentation with use cases of Hadoop and Apache spark.

Mr. Virendra said that "Data analytics technologies and techniques give organizations a way to analyze data sets and gather new information."

His presentation was followed up by a Q&A session where everyone's doubts were cleared and Mr. Virendra shared his own experience in his industry. To conclude the meet Prof. Kalyani Joshi thanked everyone.

Program: Training on Attitude development and Positive thinking for Student Teaching and Non-teaching Staff

Objectives: This unique workshop teaches participants how to develop a positive attitude for success. Whether you consider yourself to have a good or bad attitude, this course will help you be more successful in your job and life.
Need: Participants learn practical techniques and specific how-to's they can use immediately to refocus and rethink their approach to work performance, the team, the boss and their life.

Resource Person: Dr. Sagar Manjre

Date: 10/12/2019

Time: 10:00 am to 01:00pm

Venue: Seminar Hall

No. of Participants Staff: 15

No. of Participants Student :25

An Attitude Skills Workshop

- Learn thinking processes that maximize your ability to succeed.
- Unique workshop teaches you how to develop and Apply Positive Attitudes for Success.

Further, he told some of the benefits of positive thinking in workplace. It includes:

- It improves problem-solving
- It helps decision-making
- It reduces stress levels
- It helps you manage feedback and conflict
- It facilitates interaction

He also described some of the ways positive thinking:

- Adjust your vocabulary
- Consider how others feel
- Smile more often
- Interact with positive people
- Develop goals.
- Think ahead
- Engage in self-reflection

Siddhant Institute of Computer Application Sudumbare, Pune-412109 SEAL

The overall training was very motivating for all the participants.

Overview of Topics Covered and Learning Points Developed

- Understanding attitude
- Recognize the importance of attitude
- Positive attitude is the way you dedicate yourself and the way you think
- Check the way you think
- Developing your attitude attributes
- Develop a "Yes I can" attitude
- Learning the power of attitude
- Identify attitude origins and influences
- Apply the principles that lead to positive attitudes
- Have a clear, concise vision
- Do a reality check of your dreams
- Don't let fear stop your success
- Sell the benefits of performance
- Take responsibility for your attitude, your actions and your results
- Take specific actions that will lead to a positive attitude
- Tell stories to paint pictures of success
- Invite participation
- Radiate optimism
- Recognize achievement
- What to do when you become negative
- What to do when others are negative
- Develop individual action plans to achieve a positive attitude

NodeJS and GITHUB Training

Date- 5th April 2019 to 11th April 2019
Time-1.30 pm to 3.30pm
Venue-FYMCA Classroom
Speaker – Ms. Reshma Jadhav
No. of Staff: 08
No.of Students: 20

Hands-on training sessions on NODEJS and GITHUB were organized by the training cell of the institute for MCA students & Staff. These sessions were conducted every day in the second half. During these highly interactive sessions, following topics were covered by the trainer:

1. Industry standard JavaScript [ES6+]
    a. From variables to advanced topics like closures

2. Node.js with Express framework
    a. Middleware's
    b. Routing
    c. Environment management
    d. Basics of MongoDB + Mongoose ORM
    e. JWT
    f. Asynchronous task management

3. Git
a. Creating repositories
b. Git commands
c. Conflict resolution
d. version control

The sessions were conducted in English, Hindi and Marathi languages so as to facilitate better understanding. It was executed on the Zoom platform.
Attendance and Feedback about the session was taken immediately after the last session. Total 08 staff shared their feedback with the training cell.

Seminar on Intellectual property Right (IPR) Report at SIMS

Aim and objective of Seminar lecture was to make all student and faculties understand what is intellectual property its concept &History of IPR in India.

Introduction

Intellectual property Right (IPR) is a term used for various legal entitlements which attach to certain of information, ideas, or other intangibles in their expressed form. The holder of this entitlement is generally entitled to exercise various exclusive rights in relation to the subject matter of the Intellectual Property.

History of IPR In India

George Alfred DePenning is supposed to have made the first application for a patent in India in the year 1856. On February 28, 1856, the Government of India promulgated legislation to grant what was then termed as "exclusive privileges for the encouragement of inventions of new manufactures" i.e the Patents Act. On March 3, 1856, a civil engineer, George Alfred DePenning of 7, Grant's Lane, Calcutta petitioned the Government of India for grant of exclusive privileges for his invention - "An Efficient Punkah Pulling Machine". On September 2, DePenning, submitted the Specifications for his invention along with drawings to illustrate it's working. These were accepted and the invention was granted the first ever Intellectual Property protection in India.

What is Intellectual Property?

Intellectual property is an intangible creation of the human mind, usually expressed or translated into a tangible form that is assigned certain rights of property. Examples of intellectual property include an author's copyright on a book or article, a distinctive logo design representing a soft drink company and its products, unique design elements of a web site, or a patent on the process to manufacture chewing gum.

What is Intellectual Property Rights?

Siddhant Institute of Computer Application SEAL Sudumbare

Add:At post-Sudumbare,Tal-Maval,Dist-Pune-412109,Ph:02114-661992
Email: siddhantica1@gmail.com Website: www.siddhantica.in

Intellectual property rights (IPR) can be defined as the rights given to people over the creation of their minds. They usually give the creator an exclusive right over the use of his/her creations for a certain period of time. Intellectual property (IP) refers to creations of the mind: inventions, literary and artistic works, and symbols, names, images, and designs used in commerce

Intellectual Property Rights (IPR) of Computer Software in India, the Intellectual Property Rights (IPR) of computer software is covered under the Copyright Law. Accordingly, the copyright of computer software is protected under the provisions of Indian Copyright Act 1957. Major changes to Indian Copyright Law were introduced in 1994 and came into effect from 10 May 1995. These changes or amendments made the Indian Copyright law one of the toughest in the world. The amendments to the Copyright Act introduced in June 1994 were, in themselves, a landmark in the India's copyright arena. For the first time in India, the Copyright Law clearly explained:

- The rights of a copyright holder
- Position on rentals of software
- The rights of the user to make backup copies Since most software is easy to duplicate, and the copy is usually as good as original, the Copyright Act was needed.

Some of the key aspects of the law are:

- According to section 14 of this Act, it is illegal to make or distribute copies of copyrighted software without proper or specific authorization.
- The violator can be tried under both civil and criminal law.
- A civil and criminal action may be instituted for injunction, actual damages (including violator's profits) or statutory damages per infringement etc.
- Heavy punishment and fines for infringement of software copyright.
- Section 63 B stipulates a minimum jail term of 7 days, which can be extended up to 30 days

Concept of IP valuation

Siddhant Institute of Computer Application ★ Sudumbare, Pune-412109 ★ SEAL

Concept of IP valuation as a separate asset, IP must be attributed a value. An intellectual property valuation may be made for various purposes, each of which is reflected in the four major concepts of valuation:

- Replacement cost: The value of the IP to the owner frequently determines the price in negotiated transactions as indicated by the owner's view of its replacement cost.
- Market value: The basis of market value is the assumption that if comparable property has fetched a certain price, then the subject property will realize a price something near to it.
- Fair value concept: This is, in essence, the desire to be equitable to both parties. It recognizes that the transaction is not in the open market and that vendor and purchaser have been brought together in a legally binding manner

Initiatives of Government of India towards protection of IPR

1. The Government has brought out A Handbook of Copyright Law to create awareness of copyright laws amongst the stakeholders, enforcement agencies, professional users like the scientific and academic communities and members of the public.
2. National Police Academy, Hyderabad and National Academy of Customs, Excise and Narcotics conducted several training programs on copyright laws for the police and customs officers.
3. The Department of Education, Ministry of Human Resource Development, Government of India has initiated several measures in the past for strengthening the enforcement of copyrights that include constitution of a Copyright Enforcement Advisory Council (CEAC), creation of separate cells in state police headquarters, encouraging setting up of collective administration societies and organization of seminars and workshops to create greater awareness of copyright laws among the enforcement personnel and the general public.
4. Special cells for copyright enforcement have so far been set up in 23 States and Union Territories

Email: siddhantica1@gmail.com Website: www.siddhantica.in

5. The Government also initiates a number of seminars/workshops on copyright issues. The participants in these seminars include enforcement personnel as well as representatives of industry organizations.

Dr. Harish Tiwari was a guest speaker on IPR this session was really wonderful where all participants gained a valuable knowledge on what IPR is. Views were shared by our faculty member and the session ended with question and answer by the participants.
